

INNOVATION IN SOLAR RESOURCE MANAGEMENT THERMAL APPLICATIONS: CSP AND DESALINATION

Thesis

for the degree of

Doctor of Philosophy

in

Engineering

and

Applied Sciences

with a specialization in

Solar Energy

and

Renewable Energy

and

Water Resources

and

Desalination

and

Thermal Applications

and

CSP

and

Water Desalination

and

Optimal Resource Management

and

Water Resource Management

and

Solar Thermal Applications

and

Solar Thermal Desalination

and

Solar Thermal Power Plants

and

Solar Thermal Water Heating

and

Solar Thermal Desalination

and

Solar Thermal Power Plants

and

Solar Thermal Desalination

and

Solar Thermal Power Plants

and

Solar Thermal Desalination

and

Solar Thermal Power Plants

and

Solar Thermal Desalination

and

Solar Thermal Power Plants

and

Solar Thermal Desalination

and

Solar Thermal Power Plants

and

Solar Thermal Desalination

and

Solar Thermal Power Plants

and

Solar Thermal Desalination

and

Solar Thermal Power Plants

and

Solar Thermal Desalination

and

Solar Thermal Power Plants

and

Solar Thermal Desalination

and

Solar Thermal Power Plants

and

Solar Thermal Desalination

and

Solar Thermal Power Plants

and

Solar Thermal Desalination

and

Solar Thermal Power Plants

and

Solar Thermal Desalination

and

Solar Thermal Power Plants

and

Solar Thermal Desalination

and

Solar Thermal Power Plants

and

Solar Thermal Desalination

and

Solar Thermal Power Plants

and

Solar Thermal Desalination

and

Solar Thermal Power Plants
